SHOSHINZ presents: A Day in the Life of Miss Hiccup

**A touring solo physical comedy
extravaganza by one of Tokyo's most
renowned clowns**

The mysterious Miss Hiccup lives alone, but is definitely not lonely. She is forever accompanied by a raucous cast of sounds and music that make her life an absurd adventure.

SHOSHINZ is Japanese for "shy timid people," but this surreal Tokyo comedian is subservient to nothing and no one.

Her delicate silences and coy demeanor will lure you in, and then they will bend your mind with brilliant physical theater, dance, absurd music and song.

SHOSHINZ has starred in numerous theater productions in Tokyo and across Japan, and has toured to Canada, Egypt, Russia, Iran, and many countries across Asia.

SHOSHINZ is one of the most renowned comedy acts in Japan, regularly performing in Tokyo, Canada, and the United States. Shoshinz presents: A Day in the Life of Miss Hiccup will tour around the world in 2010.

"Serious skills are at play here, with not a glance nor a step wasted
...full of kooky surprises."
